

AGENDA ITEM #2E
January 19, 2010

Introduction

MEMORANDUM

January 15, 2010

TO: County Council

FROM: ^{GO} Glenn Orlin, Deputy Council Staff Director

SUBJECT: **Introduction**—amendments to the FY09-14 Capital Improvements Program reflecting the County Executive's proposed FY10 Savings Plan, Round 2

The Office of Management and Budget has transmitted 29 project description forms (PDFs) reflecting the Executive's proposed reductions in tax-supported Current Revenue in the several projects across County Government, Montgomery College, Maryland-National Capital Park and Planning Commission, and the Housing Opportunities Commission. The Executive is not recommending any cuts to Montgomery County Public Schools projects. (There are no tax-supported funds in the Washington Suburban Sanitary Commission capital program.) A summary of the changes is shown in the table on ©1-3, and a draft adoption resolution including the project description forms follows after ©3.

Each Council Committee will review the proposed amendments under its portfolio at the same time it reviews its respective Operating Budget items. The public hearing and action on these amendments will take place on February 9, the same day when action on the balance of the Savings Plan is also scheduled.

TAX SUPPORTED CURRENT REVENUES

	FY10 CIP Reductions		
Project #	Project Name	FY10 Est. Reduction	Comments
	Montgomery County Public Schools MCPS Total Reduction	-	No Reductions
	Montgomery College FY10 Reductions		
076617	Student Learning Support Systems	1.000	No major impact to current program.
076618	Network Operating Center	0.146	No major impact to current program.
076619	Network Infrastructure and Support Systems	0.533	No major impact to current program.
886686	Facility Planning: College	0.171	No major impact to current program.
	Montgomery College Total Reduction	1.850	
	Maryland -National Capital Park and Planning Commission FY10 Reductions		
018710	Legacy Open Space	1.200	No major impact to current program. May request GO Bond funding if an unanticipated acquisition opportunity arises.
078702	Brookside Gardens Master Plan Implementation	0.015	No Impact. Facility plan for Phase II (parking lot expansion at the Visitors' Center) is nearing completion.
078708	Wheaton Tennis Bubble Renovation	0.020	No impact. Project is complete.
068701	Needwood Golf Course Improvements	0.020	No impact. Project is nearly complete. Any future unexpected expenditures can be funded from another source.
858710	Trails: Nat. Surface Dsgn, Const, and Renovtn	0.097	Some impact. Reduction will eliminate any planned FY10 reforestation, and one third of the improvements to signs and kiosks, as well as improvements to Rachel Carson Trail, will be delayed.
768673	Trails: Hard Surface Dsgn, and Const	0.100	No impact to current program. All projects will remain on schedule
848704	Brookside Gardens	0.026	Project is nearly complete; GO Bonds can fund any remaining expenditures.
958776	Facility Planning: Non-Local Parks	0.320	No impact. There is enough funding to complete facility planning for Little Bennett Regional Park.
058755	Small Grant/Donor-Assisted Capital Imprv	0.050	No impact. There is sufficient funds to match potential contributions in FY10.

TAX SUPPORTED CURRENT REVENUES

	FY10 CIP Reductions		
808494	Restoration of Historic Structures	0.370	Some impact. Some projects, including rehabilitation of the Red Door Store, will be delayed.
838882	Roof Replacement: Non Local Park	0.174	No impact to current program.
968755 998709	PLAR: Non-Local Parks Play Equipment	0.100	No impact to current program.
998764 998798	Resurfacing Parking Lots and Paths: Non-Local Parks	0.010	No impact to program. Minimal reduction.
	M-NCPPC Total Reduction	2.502	
	TRANSPORTATION FY10 Reductions		
509337	Facility Planning - Transportation	0.500	MD355 Sidewalk - \$120k, MacArthur Boulevard Bikeway Segment 3 - \$180k, and Central Ave. Sidewalk- \$200k moved out of FY10 and into FY11 and beyond.
509399	Advanced Transportation Management Systems	0.350	Some impact. Software development continuity may be impacted.
507596	Annual Bikeway Program	0.104	Some impact. No additional Bikeway Signage will be installed for the remainder of FY10. Staff time in support of the Monthly coordination meetings with MCBAG (Montgomery County Bicycle Action Group) will be eliminated for the remainder of FY10
	Transportation Total Reduction	0.954	
	MCG - GENERAL FY10 Reductions		
508180	Facility Planning: Storm Drains	0.096	Some impact.
809319	Facility Planning: SM	0.500	No impact. Replace with WQPC funding.
500152	Facilities Site Selection: MCG	0.191	Some impact. Site selection activities for projects planned to begin in FY13 and beyond may be delayed.
508768	Facility Planning: MCG	0.550	Minimal impact. Some work will be delayed.
450700	FS Emergency Power System Upgrade	0.992	No impact. Replace with GO Bond from FY10 "set-aside"
710101	Germantown Library	1.299	No impact. Library complete.
710300	Gaithersburg Library Renovation	0.081	No impact. Funds for interim structure has been preserved.

2

TAX SUPPORTED CURRENT REVENUES

	FY10 CIP Reductions		
789057	Life Sciences and Technology Centers	0.080	No impact. Funds for Phase II work for the MD Voluntary Clean-Up program at Site II and grass-cutting charges have been preserved.
	MCG General Total Reduction	3.789	
	Montgomery County Government	4.743	
	Housing Opportunities Commission FY10 Reductions		
017601	Supplemental Funds for Public Housing	0.121	No impact to current program.
	HOC Total Reductions	0.121	
	Total FY10 Current Revenue General Reduction	9.216	

3

Resolution: _____

Introduced: _____

Adopted: _____

COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND

By: County Council at the request of the County Executive

SUBJECT: Amendments to the FY09-14 Capital Improvements Programs of Montgomery County Government, Montgomery College, Maryland-National Capital Park and Planning Commission, and Housing Opportunities Commission reflecting the County Executive's FY10 Savings Plan, Round 2

Background

1. Section 302 of the Montgomery County Charter provides that the Council may amend an approved capital improvements program at any time by an affirmative vote of no fewer than six members of the Council.
2. On January 7, 2010 the County Executive recommended expenditure reductions in 29 projects spanning the FY09-14 Capital Improvement Programs of the County Government, Montgomery College, Maryland-National Capital Park and Planning Commission, and the Housing Opportunities Commission as part of the second round of his proposed FY10 Savings Plan. The total proposed expenditure reduction in these capital projects is \$9,216,000.
3. Notice of public hearing was given and a public hearing was held.

Action

The County Council for Montgomery County, Maryland, approves the following action:

The FY09-14 Capital Improvements Programs of the County Government, Montgomery College, Maryland-National Capital Park and Planning Commission, and the Housing Opportunities Commission are amended as reflected on the attached project description forms.

This is a correct copy of Council action.

Linda M. Lauer, Clerk of the Council

DESCRIPTION

This project includes the installation, upgrading and replacement of student tracking, disability support services, student e-mail, e-portfolio, resume software, podcasting, communication tools and systems, identification security, and cybersecurity tools for these systems, and other applications used by and for students and faculty. This request includes both hardware and software. The request includes funding for technical project and planning analyst positions to manage applications systems, and be in charge of the design, setup and maintenance of technical specifications and on-going review and update of the systems to stay current. Two (2) staff positions are currently funded in this project. One (1) additional staff position is requested in FY 2009 and one (1) more in FY 2010 for a total of four (4) positions.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$1,000,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

These systems help assure student success through technological support of academic and instructional programs and initiatives as well as allowing tracking of progress to assist in measuring outcomes and assessments. The College has growing needs to track students as part of the measurement of student success at the College. This is fundamental in measuring/documenting student success. The disability support services request is to address the special needs of students using adaptive technologies. Student e-mail will allow the students to communicate better with the faculty and the other offices at the College and vice versa. Both e-portfolio and resume software will aid our students in finding employment.

Information Technology Strategic Plan - FY2009-2011 - The three goals of the ITSP are the use of information technology to (1) facilitate student success; (2) effectively and efficiently operate the College; and (3) support the College's growth, development and community initiatives. The ITSP is an overall strategic plan that provides a cost effective and efficient vision for instructional, academic and administrative systems; and serves as a basis for preparing unit plans and budget requests for the plan's implementation.

OTHER

FY2010 Appropriation: \$720,000 (Current Revenue: General).

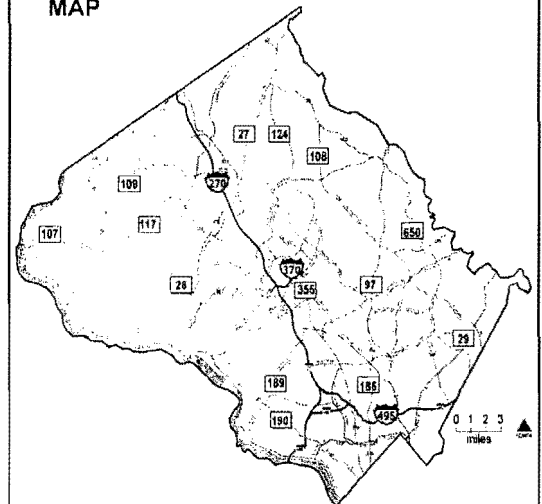

The College's updated ITSP for FY09-11 supports this funding request. The ITSP is a comprehensive plan covering information technology activities funded from all budget sources for an integrated and complete plan for the College. Updated on an annual basis, the ITSP serves as the document for future funding requests.

DESCRIPTION

The purpose of this project is to establish and equip a Network Operating Center (NOC) on the Takoma Park/Silver Spring Campus and related central sites and provide for planned lifecycle asset replacement. The Network Operating Center is the center for all of the College's instructional, academic and administrative computing systems. The Network Operating Center is currently located in the Computer Science Building on the Rockville Campus. The NOC will be relocated to the Cafritz Arts Center on the Takoma Park/Silver Spring Campus at 7600 Takoma Avenue; the vacated space on the Rockville Campus will be reallocated for instructional programs. This project also funds staff for monitoring of security, cybersecurity, disaster recovery and redundant systems to help insure the integrity of the NOC. Two (2) staff positions are included in the FY 2009 estimate.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$146,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

The College has a need for more instructional space on the Rockville Campus and Information Technology has outgrown the space in the Computer Science Building. This space has housed the Network Operating Center (formerly known as the computer room) for nearly 25 years and was originally constructed to accommodate two mainframes, peripherals and extremely limited "terminals". This same space now houses 179 servers and the telecommunications necessary to connect over 8,000 microcomputers and technology related components. The new NOC will also allow the College to improve availability with upgraded disaster recovery components, security firewalls and security systems. The planned lifecycle asset replacement and upgrades are a critical component of maintaining a state of the marketplace hardware and operating software.

Information Technology Strategic Plan - FY2009-2011 - The three goals of the ITSP are the use of information technology to (1) facilitate student success; (2) effectively and efficiently operate the College; and (3) support the College's growth, development and community initiatives. The ITSP is an overall strategic plan that provides a cost effective and efficient vision for instructional, academic and administrative systems; and serves as a basis for preparing unit plans and budget requests for the plan's implementation.

OTHER

FY2010 Appropriation: \$900,000 (Current Revenue: General).

The College's updated ITSP for FY09-FY11 supports this funding request. The ITSP is a comprehensive plan covering information technology activities funded from all budget sources for an integrated and complete plan for the College. Updated on an annual basis, the ITSP serves as the document for future funding requests.

WorkYears					4.0	4.0	4.0	4.0	4.0	4.0	

DESCRIPTION

The purpose of this project is to provide planned lifecycle asset replacement and upgrades, and to establish network infrastructure and support systems in existing and new locations based on academic and instructional needs and requirements. The network infrastructure and support systems represent systems outside the Network Operating Center (NOC) structure including campus centers for labs, classrooms, offices, and learning centers, as well as, operation centers for telephony, communication, security, and notification systems. These systems include servers, high speed connection systems, hubs, ports, firewalls, instructor workstations, hands on computing and technology tools, audio visual equipment, software support and remote access among other developing technologies. This project also funds three new project managers to oversee the design of new buildings and renovations (one for each campus) and staffing for collegewide communication and notification systems. Three (3) staff positions are currently funded in this project. One (1) additional position is requested for FY 2009 for a total of four (4) positions.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$533,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

The NOC and network infrastructure must be compatible and work in concert with each other so no location is without central and on-site technology capabilities and support. This requires planned replacement and upgrades as new technology evolves. As faculty continue to develop more learning programs and methods to meet the increased expectations of students, the technology needs are increasing and changing for existing and new capabilities. Without meeting these requirements developed in the ITSP, College unit plans, overall strategic plans and telecommunications plans, the College will fall behind on expectations and the ability to deliver the right technology at the appropriate time.

Information Technology Strategic Plan - FY2009-2011 - The three goals of the ITSP are the use of information technology to (1) facilitate student success; (2) effectively and efficiently operate the College; and (3) support the College's growth, development and community initiatives. The ITSP is an overall strategic plan that provides a cost effective and efficient vision for instructional, academic and administrative systems; and serves as a basis for preparing unit plans and budget requests for the plan's implementation.

OTHER

FY2010 Appropriation: \$900,000 (Current Revenue: General).

The College's updated ITSP for FY09-FY11 supports this funding request. The ITSP is a comprehensive plan covering information technology activities funded from all budget sources for an integrated and complete plan for the College. Updated on an annual basis, the ITSP serves as the document for future funding requests.

DESCRIPTION

This project provides funding for facility planning studies for projects being considered for possible inclusion in the CIP. In addition, facility planning serves as a transition stage for a project between the master plan or conceptual stage, and its inclusion as a stand-alone project, or subproject, in the CIP. Prior to the establishment of a stand-alone project, the College develops a Facility Program/Program of Requirements (POR) that outlines the general and specifies features required on the project. Facility planning is a decision-making process to determine the purpose and need of a candidate project through a rigorous investigation of the following critical project elements: usage forecasts; economic, social, environmental, and historic impact analyses; public participation; investigation of non-County sources of funding; and detailed project cost estimates. This project provides for project planning and preliminary design, and allows for the development of a program of requirements in advance of the full programming of a project in the CIP, including the preparation of Part I and II documentation to meet State requirements. Depending upon the results of a facility planning determination of purpose and need, a project may or may not proceed to construction.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$171,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

There is a continuing need for the development of accurate cost estimates and an exploration of alternatives for proposed projects. Facility planning costs for all projects which ultimately become stand-alone PDFs are included here. These costs will not be reflected in the resulting individual project. Future individual CIP projects which result from facility planning will each reflect reduced planning and design costs.

Collegewide Facilities Condition Assessment Update (11/07), and Collegewide Facilities Master Plan Update (Pending 2009).

OTHER

The following fund transfers have been made from this project: \$25,000 to the Information Technology: College project (#856509) (BOT Resol. #91-56 - 5/20/91); \$7,000 to Planning, Design & Construction (#906605) (BOT Resol. #01-153 - 10/15/01); \$25,000 to Planning, Design and Construction (#804064) (BOT Resol. #02-62 - 6/17/02). The following fund transfer has been made to this project: \$28,000 from the South Silver Spring Property Acquisition (#016602) (BOT Resol. # 03-28 - 4/21/03). By County Council Resol. No. 12-6333, the cumulative project appropriation was reduced by \$187,500 in FY92.

FY2010 Appropriation: \$270,000 (Current Revenue: General).

DESCRIPTION

The Legacy Open Space initiative identifies open space lands that should be acquired and interpreted because of exceptional natural or cultural value to current and future generations of Montgomery County residents. Legacy Open Space will acquire or obtain easements or make fee-simple purchases on open-space lands of countywide significance. Priorities are updated during each CIP cycle but remain flexible to allow the Montgomery County Planning Board to address development threats and joint funding opportunities. The County Council encourages the Commission to seek supplemental appropriations if approved CIP funding is insufficient.

Non-County funding sources are expected to contribute significantly to the Legacy Open Space program. Contributions will appear in the PDF Expenditure and Funding Schedules if the contribution is spent by the County or M-NCPPC. For instance, matching donations from partners in cash or Program Open Space (POS) funds are spent by the County or M-NCPPC and thus are reflected in the schedules above, while donations of land or non-County funded payments that go directly to property owners are not included. The combination of these non-County and County funds have resulted in the program successfully protecting over 3,200 acres of open space in the County, including 2,030 acres of in-fee acquisition and 1,166 acres of easements.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$1,200,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

2005 Land Preservation, Parks and Recreation Plan recommends placing priority on conservation of natural open spaces in and beyond the park system, protection of heritage resources, and expanded interpretation activities.

Legacy Open Space: Open Space Conservation in the 21st Century, approved by the Montgomery County Planning Board in October 1999. Legacy Open Space Functional Master Plan adopted by the County Council in July 2001.

FISCAL NOTE

FY10 current revenue reduced by \$25,000.

M-NCPPC's annual appropriation includes \$250,000 County Current Revenue (with an exception in FY10, which includes \$225,000 in County: Current Revenue) to cover one-time costs required to secure and stabilize properties, e.g. remove attractive nuisances, post, fence and alarm properties, clean-up

DESCRIPTION

This project implements phases 1 and 2 of the Brookside Gardens Master Plan. Private donations will fund the majority of design and construction costs. The phased implementation in the CIP is as follows:

Phase 1- FY07-FY09: Facility planning, design and construction of the entry way at 1800 Glenallan Avenue
Phase 2 - FY07-FY08: Facility planning of the parking lot expansion, storm water management and South Service Drive

COST CHANGE

The County Executive recommends and the County Council approves reducing \$15,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Visitor Survey (1995). Brookside Gardens Master Plan (2004), including data from several focus groups held during the planning process and public testimony at planning board hearings. Renovations address critical maintenance needs for the 37 year-old facility that has become one M-NCPPC's most popular facilities. Most of the work will be funded through aggressive fund raising efforts. In addition, support for master plan implementation was received at the CIP Public Forum, April, 2005, and in letters of support for renovated and new gardens, renovated and enlarged facilities, family restrooms, more educational programming, increased parking.

1995 Visitor Survey. Brookside Gardens Master Plan approved by Montgomery County Planning Board, March 3, 2005.

FISCAL NOTE

Transfer in \$66,000 (Current Revenue) from Fairland Golf Course (PDF058777).

A donation of \$50,000 was received in FY06 for facility planning of Phase I and is included in the Small Grants and Donations PDF 058755.

Private donations for funding of facility design and construction of Phase 1. County Current Revenue funding is used facility planning for phase 2. Phase 3, streambank stabilization, will be funded by the Maryland Department of Environmental Protection.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.

Net Impact				222	37	37	37	37	37	37

DESCRIPTION

The project provides funds to renovate the 36,000 sq. ft. lightweight steel frame tennis structure located in Wheaton Regional Park. The renovation includes a new fabric covering, with insulating lining, and HVAC and lighting system upgrades. In addition, the project funds replacement and expansion of the support facilities, including improved access to all six courts, enlarged lobby and pro shop, expanded locker rooms, possible weight room, and storage.

The main fabric covered structure is under renovation in FY08. The original "bubble" will be replaced with a new and better quality fabric, and the insufficient HVAC system and light fixtures will be upgraded. Site improvements will enhance aesthetics and improve drainage and maintenance.

Plans for the ancillary building include a second floor mezzanine to provide an alternative view of the tennis courts. The building will be accessed from the west by reconfiguring the existing walkway. The facility will house a large waiting/sitting space with a view of the tennis courts from the first floor and the mezzanine level, two staff offices, a cashier's office with space for a 'pro shop, restrooms with showers and lockers, a kitchenette, and a large storage space. Court access will be provided from the first floor lobby/sitting area.

Tennis bubble improvements in FY08. Ancillary building design in FY10-11, with construction in FY12-13.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$20,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

The April 2006 Wheaton Tennis Facility Feasibility Study provides revenue and expenditure analyses for the facility, a technical assessment of the structure, fabric covering, and heating system, and outlines recommended alternatives and capital costs for renovation or replacement. The facility plan also proposes replacing the existing ancillary building with a new one at the same location.

FISCAL NOTE

In FY09, \$141,000 in current revenue transferred in from PLAR Minor Renovations, PDF 998708.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
- M-NCPPC asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

DESCRIPTION

PENDING CLOSEOUT.

This project is to design a replacement irrigation system at Needwood Golf Course located in the Rock Creek Regional Park. A new project included in the Proposed M-NCPPC FY07-12 CIP are the replacement and renovation of the irrigation system as well as improvements of the cart path system to provide tee to green paths.

The irrigation system will be replaced with a modern double row system in the fairways that will provide better coverage and reduce over watering. New valves will be installed to enable zone control in the system and the central control system will be upgraded.

It is anticipated that Tee to green cart paths will be installed in the same construction cycle in order to reduce the time that the course is under construction. The paths will complete the network which currently only serves the areas around the tees and greens. Connecting the paths reduces turf damage and enables the course to be open for cart use sooner after major rain events, thus improving play and customer experience.

Design of the irrigation system will begin in FY06. Construction will be begin in FY07. Design and construction of the cart paths will begin in FY07.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$20,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

The main components of the irrigation system are 10 to 15 years beyond the normal life expectancy of irrigation systems, which is 20 to 25 years. Irrigation system failure results in interruption of operations of the course, threatens survival of grasses, and reduces potential revenue. Tee to green golf cart paths are needed to reduce damage to turf, improve playability and enhance the customer experience.

Consultant report supports the need for irrigation system replacement.

FISCAL NOTE

FY06 supplemental appropriation of \$114,000 (Current Revenue: General) to begin design of the irrigation system.

DESCRIPTION

This PDF includes planning, design, and construction and reconstruction of natural surface trails. Natural surface trails are usually located in stream valley parks. Surfaces include dirt, wood chip, soil mixtures, and sometimes gravel or stone, supplemented by boardwalk or other elevated surfaces when needed; they are generally narrower than hard surface trails. Natural surface trails accommodate pedestrians, equestrians and/or off-road (mountain) bicyclists, and generally do not meet ADA requirements. The expenditure schedule does not include the value of work done by volunteers to assist with the construction of natural surface trails.

Scheduled in FY09-14 are natural surface trail projects in the following areas: Hoyles Mill Conservation Park and Little Bennett Regional Park; Rachel Carson Greenway (NW Branch SVP and Hawlings River SVP); Rock Creek Trail; Cabin John SVP. In FY13-14, a mountain bike trail is scheduled for construction in Carson Farm Special Park.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$97,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Informal trails at Rachel Carson need realignment and drainage improvements in order to protect natural resources at the conservation park while allowing some trail use. Improvements address only the highest priority needs for each trail and presume some volunteer assistance for hand labor. Projects in Rock Creek, Rachel Carson, Little Bennett, and Black Hill implement park master plans. This CIP Project implements the natural surface recreational trail component of the Countywide Park Trails Plan and trail recommendations in area master plans.

Countywide Park Trails Plan approved by the Planning Board in July 1998. The Potomac Sub-region Master Plan was approved by the Planning Board in 2002.

2005 Land Preservation, Park and Recreation Plan.

FISCAL NOTE

FY10 current revenue reduced by \$15,000.

OTHER DISCLOSURES

- A pedestrian impact analysis will be performed during design or is in progress.
- * Expenditures will continue indefinitely.

Total	2,344	0	544	1,800	300	300	300	300	300	300	0

DESCRIPTION

This PDF provides for the design and construction of new trails and extensions or connectors to existing trails, as well as trail amenities, and trail signage. It does not include reconstruction or repair of existing trails. Hard surface trails accommodate road bicyclists, pedestrians, and in-line skaters and meet Americans with Disabilities Act (ADA) guidelines, where feasible.

Projects planned in FY09-14 include: access improvements to Capital Crescent Trail; connector trails in Black Hill Regional Park and Capital Crescent Trail; trail signage and kiosks at various sites throughout trail system.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$100,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Connectors, safety improvements, signage, and amenities increase trail usage for recreation and promote walking and biking as alternatives to vehicular transportation.

In park user surveys, hiking and biking on trails is the most frequent recreation activity reported. Biking and walking paths top respondents' lists of desired facilities or greatest facility shortages.

Countywide Park Trails Plan, adopted July 1998.

OTHER DISCLOSURES

- A pedestrian impact analysis will be performed during design or is in progress.
- M-NCPPC asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
- * Expenditures will continue indefinitely.

DESCRIPTION

Brookside Gardens, established in 1969 in Wheaton Regional Park, consists of a 50-acre public garden and Visitor's Center that receives over 300,000 visitors annually. This project funds reconstruction of the garden's water distribution system. The current system is antiquated, provides low water pressure, does not provide water to all garden areas, involves high annual maintenance and repair costs, and does not comply with current code requirements. The system breaks and leaks periodically. Since water pressure is not sufficient enough to water more than one area of the gardens at a time, many areas are watered inefficiently by hand or with water trucks.

The first phase of this project provides a main water distribution system throughout the gardens, a reliable water service to all facilities for visitor needs, fire safety, and plant health. The second phase provides irrigation and sprinkler systems that reduce annual costs for watering, improve water conservation and improve plant growth and health.

Construction will be complete in FY09 as originally anticipated.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$26,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

The Brookside Gardens Master Plan was presented to the Planning Board in 2001 and 2002. The master plan guides garden renewal, renovations to existing structures and development of new amenities and facilities, however, the PDF scope of work is not dependent on approval of the Master Plan as proposed.

OTHER

Irrigation protects the Commission's investment in plants and provides proper maintenance of the gardens. The current antiquated system provides low water pressure, does not provide water access in all garden areas, involves a high annual maintenance/repair costs, and has unsafe/hazardous turn-off pits.

Total	2,123	0	673	1,450	250	0	300	300	300	300	0

DESCRIPTION

This project funds preparation of facility plans and related plans/studies/analyses, e.g. environmental, feasibility, engineering, and utilities analyses. Facility plans produce well-reasoned project cost estimates based on preliminary design, i.e. one-third of final design and construction documents. Preliminary design includes topographic surveys, environmental assessments, traffic studies, site plans, schematic drawings, floor plans, elevations, quantity calculations, and cost estimates, as well as public participation. Facility planning is needed when the variables or options involved in the project do not support reliable independent cost estimating. This project also supports upfront planning activities associated with capital investments that may result from public-private partnerships.

Candidate projects include, but are not limited to: Rock Creek Maintenance Facility, Woodstock Equestrian Park facilities, Northwest Branch Recreational Park, Riley Farm (Uncle Tom's Cabin), Agricultural History Farm Park maintenance facility, Muddy Branch SVP trail, the Brainard Warner House, Waters House parking and trail connector, Seneca Store and Darby House feasibility studies, Little Bennett RP projects, and a nature center, as well as planning activities associated with review and participation in public-private partnership initiatives, and development of park design guidelines. Facility planning also occurs in or related to several other non-local park PDFs.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$320,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

2005 Land Preservation, Park and Recreation Plan, Countywide Park Trails Plan, approved by the Planning Board in July 1998; Rock Creek Regional Park Master/Management Plan, approved by the Planning Board in June 1999.

OTHER

Candidate projects include, but are not limited to: Rock Creek Maintenance Facility, Woodstock Equestrian Park, Northwest Branch Recreational Park, Agricultural History Farm Park, Muddy Branch SVP trail, and a nature center, as well as planning activities associated with review and participation in public-private partnership initiatives, and development of park design guidelines. Facility planning also occurs in or related to several other non-local park PDFs.

FISCAL NOTE

FY10 current revenue reduced by \$30,000.

There is a continuing need for the development of accurate cost estimates and an exploration of alternatives for proposed facility projects. Facility planning costs for non-local park projects which may become stand-alone PDFs or be funded in other ongoing PDFs are included here, except as noted below. Future projects which result from facility planning programmed in this PDF will reflect reduced planning and design costs.

In recent years, the Commission has entered into or considered many public-private partnerships. These partnerships contribute to the excellence and diversity of park facilities serving our constituents, but public-private partnerships require an upfront investment by the Commission that is not readily discernible. Legal, procurement, and general administrative costs are appropriately absorbed by the operating budget, but architectural, landscape architectural, engineering, survey, acquisition, and similar costs associated with upfront planning related to evaluating, responding to, and participating in these public-private partnerships should be programmed in the CIP. The staff salaries associated with these activities are programmed principally in the CIP rather than the operating budget and funds for upfront surveys, feasibility studies, or contract planning work are typically not available in the operating budget.

DESCRIPTION

This project authorizes expenditures for new or existing projects that receive support from non-County government funding sources, e.g. grants, donations, gifts, fund raising projects, and sponsorships. No funds can be expended from this project unless at least 80 percent of the total cost of the project, or the change to an existing project, is provided from a non-County government funding source. The funds provided can be expended within this project provided:

1. The capital cost is less than \$100,000; or
2. The capital cost is at least \$100,000, but the project:
 - (a) does not have an Operating Budget Impact (OBI) in excess of 10 percent of the capital cost; and
 - (b) vehicle trips generated by the project do not exceed 25 vehicle trips during the peak one-hour period in the vicinity of the project.

The Department must notify the County Council of any grants or donations for projects having a capital cost of at least \$100,000. The Department must submit a PDF for approval by the County Council for all other projects in accordance with the County Council policy on non-County funded capital projects, approved on February 22, 2000.

Donations for the following projects have been received through FY07: Red Wiggler Community Farm, Brookside Gardens Facility Plan Phase 1, Woodside Park improvements, and playground improvements at Stewartown, Olney Square, Quebec Terrace, Flower Avenue and Randolph Hills local or neighborhood parks.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$50,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Montgomery County Department of Park and Planning Policy and Guidelines on Donations and Public/Private Partnerships, adopted 2003.

OTHER

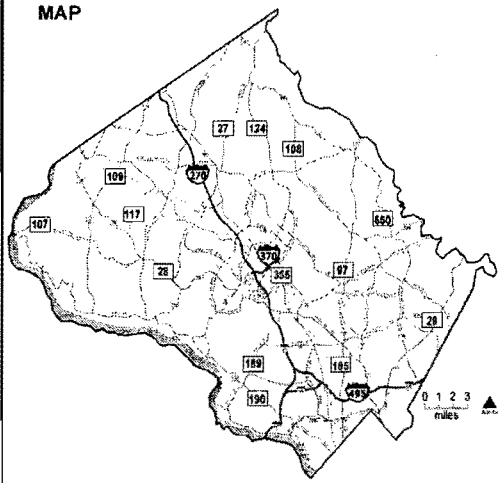

From time to time M-NCPPC is able to generate non-County government funded support for projects with the expectation that the project will be implemented in a timely way as a condition of the support. This project provides the authorization to receive and expend the funds from various sources. In addition, there is often a requirement or need for the Commission to provide matching funds, fund the overhead for the project, e.g. planning, design, and construction management or supervision services, or otherwise contribute to the project. This PDF provides public funding for this limited participation.

FISCAL NOTE

FY10 current revenue reduced by \$50,000.

OTHER DISCLOSURES

- * Expenditures will continue indefinitely.

DESCRIPTION

The Commission owns and is the steward of over 100 properties of historic or archaeological significance. This PDF provides the funds necessary to repair, stabilize, and renovate some of the important historical structures and sites that are located on parkland. This PDF also provides for planning to identify priorities, define scopes of work, develop implementation strategies, and monitor and evaluate outcomes.

A major effort of the next several years will be to actively highlight the historical and archaeological properties located on parkland and coordinate these efforts with the countywide heritage tourism initiative. Projects include feasibility studies of various sites, including Seneca/Poole Store, Jeremiah Norwood Barn, the Warner property, and others as needed. Stabilization of historic structures such as the Red Door Store, Meadowbrook Stables, Needwood Manor and Hyattstown Mill are scheduled in this project. Many of this projects may be run through private/partnership agreements. This PDF also funds placement of historic markers.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$370,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

2005 Land Preservation, Parks and Recreation Plan, approved by the Planning Board. Area master plans and the County's Historic Preservation Ordinance. From Artifact to Attraction: A Strategic Plan for Cultural Resources in Parks.

OTHER

Public demand for this is strong: in the recent PROS Survey, the majority of residents found protection of historic sites to be important and rated this as a high funding priority. Proposed funding will not only provide the funds to preserve historic structures and sites, but will also make some available for public use and interpretation.

FISCAL NOTE

FY10 current revenue reduced by \$50,000.

Funding for a visitor's center at Woodlawn Cultural Park, is appropriated in a new project, Woodlawn Barn Visitor's Center #098703.

OTHER DISCLOSURES

- M-NCPPC asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
- * Expenditures will continue indefinitely.

DESCRIPTION

This project provides for roof replacement on buildings and structures in non-local parks, as well as Countywide maintenance facilities and Park Police facilities and selected enterprise facilities that are of historic significance. The PDF also funds periodic roof evaluations and designs.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$174,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

2005 Local Land Preservation, Park and Recreation Plan, approved by the Montgomery County Planning Board. Infrastructure Inventory and Assessment of Park Components.

OTHER DISCLOSURES

- * Expenditures will continue indefinitely.

DESCRIPTION

This project schedules renovation or replacement of aging, unsafe, or obsolete park facilities or components of park facilities in non-local parks. These parks include regional, recreational, stream valley, conservation and special parks. Most of these parks are over 30 years old. Failure to renovate or replace aging park facilities or components on a scheduled basis before the end of their useful life results in decreased levels of service to park users and an overall increase in capital costs as repairs become "emergencies."

There are four sub-categories of work funded by this project. Each category has a prioritized list of candidate projects, but schedules may change as needs arise.

1. Boundary Markings: Establishes and marks park boundaries.
2. Minor Renovations: A variety of renovations at non-local parks.
3. Play Equipment: The life span of most play equipment is 20 years. Changes in safety standards sometimes require replacement at earlier intervals. Amenities included in this project are the play area border and protective surfacing under equipment, as well as benches and trees to shade the play equipment, if needed.
4. Tennis & Multi-Use Court Renovation: The asphalt base and fences generally last 20 years. Work includes fence repairs or replacement, new asphalt base, color-coat courts, install new nets and standards, and lights as needed.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$100,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Over 100 non-local parks and facilities require scheduled renovation in order to maintain a reasonable level of service for park users and avoid costly emergency repairs.

OTHER

The following repairs are funded through other PDFs: repairs to parking lots, entrance roads that are not park roads, and any type of walkway or trail which is not part of the hiker-biker system; repairs to hiker-biker and natural surface trails; and roof replacements.

OTHER DISCLOSURES

- M-NCPPC asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
- * Expenditures will continue indefinitely.

Total	2,129	0	329	1,800	300	300	300	300	300	300	0

DESCRIPTION

This PDF provides for routine renovation of parking lots, entrance roads that are not park roads, and any type of paved walkway or trail which is not part of the hiker-biker trail system. The program also includes the paving of unpaved parking lots, entrance roads, walkways or trails which are not part of the hiker-biker trail system. Non-local parks include conservation areas, regional parks, recreational parks, stream valley parks, and miscellaneous recreation facilities.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$10,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

This work is necessary for the safe upkeep of paved asphalt parking lots, entrance roads that are not park roads, and walkways or trails that are not part of the hiker-biker trail system, and paving improvements to the same if they are unpaved and require paving due to safety, maintenance, or environmental concerns.

OTHER DISCLOSURES

- * Expenditures will continue indefinitely.

DESCRIPTION

This project provides for planning and preliminary engineering design for new and reconstructed highway projects, pedestrian facilities, bike facilities, and mass transit projects under consideration for inclusion in the CIP. Prior to the establishment of a CIP stand-alone project, the Department of Transportation (DOT) will perform Phase I of facility planning, a rigorous planning level investigation of the following critical project elements: purpose and need; usage forecasts and traffic operational analysis; community, economic, social, environmental, and historic impact analyses; recommended concept design and public participation. At the end of Phase I, the Transportation and Environment Committee of the County Council reviews the work and determines if the project has the merits to advance to Phase II of facility planning, preliminary (35 percent level of completion) engineering design. In preliminary engineering design, construction plans are developed showing the specific and detailed features of the project, from which its impacts and costs can be more accurately assessed. At the completion of Phase II, the County Executive and County Council hold project-specific public hearings and then determine if the candidate project has the merits to advance into the CIP as a fully-funded, stand-alone project.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$500,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

There is a continuing need to define the scope and determine need, benefits, implementation feasibility, horizontal and vertical alignments, typical sections, impacts, community support/opposition, preliminary costs, and alternatives for master planned transportation recommendations. General Plan; Master Plans; and Master Plan of Highways; and Maryland-National Park and Planning Commission (M-NCPPC) Transportation Policy Report. The sidewalk and bikeway projects in Facility Planning specifically address pedestrian needs.

FISCAL NOTE

Replace current revenue with land sale proceeds in FY10. Starting in FY01, Mass Transit Funds provide for mass transit related candidate projects. Impact tax will continue to be applied to qualifying projects.

OTHER DISCLOSURES

- A pedestrian impact analysis will be performed during design or is in progress.
- The Executive asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
- * Expenditures will continue indefinitely.

DESCRIPTION

This project provides for Advanced Transportation Management Systems (ATMS) in the County. The ATMS deploys the infrastructure elements to conduct real-time management and operations of the County's transportation system. Twenty-two National Intelligent Transportation Architecture market packages have been identified for deployment of the ATMS. Each of these market packages is considered a subsystem of the ATMS program and may include several elements. These subsystems are identified in the ATMS Strategic Deployment Plan dated February 2001 and revised September 2005. One aspect of this project will focus on improving pedestrian walkability by creating a safer walking environment, utilizing selected technologies and ensuring ADA compliance.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$350,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

ATMS provides real-time monitoring, control, and traveler information in an effort to reduce traffic congestion and travel time, improve safety, and defer the need to construct new roads. ATMS emphasizes safety and efficiency of mobility to include mode, route, and travel time choices. ATMS supports public safety and directly impacts the movement of people and goods throughout the County's transportation system.

OTHER

This project includes the replacement of Ride On's Computer Aided Dispatch (CAD) / Automatic Vehicle Locator (AVL) system and on-bus hardware (including radios). The replacement is based on a comprehensive evaluation completed in May 2005 and will provide improved safety and security, more reliable service, better informed scheduling, and a platform for real-time customer information. \$7,540,000 is included in FY07-09 for this replacement.

OTHER DISCLOSURES

- The Executive asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

- * Expenditures will continue indefinitely.

DESCRIPTION

This project plans, designs, and constructs bikeways and trails throughout the County. The purpose of this project is to develop the bikeway network specified by master plans and to provide access to commuter rail, mass transit, major employment centers, recreational and educational facilities, and other major attractions. Types of bikeways include shared use paths, designated lanes, and signed shared routes along existing roads. This program will construct bikeway facilities that will cost less than \$300,000 each. Projects in FY09-10 will focus upon provision of directional signs to existing bikeways countywide.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$104,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

There is a continuing and increasing need to develop a viable and effective bikeway and trail network throughout the County to increase bicyclist safety and mobility, provide an alternative to the use of automobiles, reduce traffic congestion, reduce air pollution, conserve energy, enhance quality of life, provide recreational opportunities, and encourage healthy life styles.

This project implements the bikeways recommended in local area master plans; in the Countywide Functional Master Plan of Bikeways; and those identified by individuals, communities, and the Montgomery Bicycle Action Group; or bikeway segments and connectors necessitated by the subdivision process. Projects identified by individuals and communities will be used as an ongoing project guide which will be implemented in accordance with the funds available in each fiscal year.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
- The Executive asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
- * Expenditures will continue indefinitely.

DESCRIPTION

This project provides for the investigation and analysis of various storm drainage assistance requests initiated by private citizens and public agencies. These requests are related to the design, construction, and operation of public drainage facilities where flooding and erosion occur. This project includes expenditures for the preliminary and final design and land acquisition for storm drain projects prior to inclusion in the Storm Drain General project, or as a stand-alone project in the CIP. Prior to its inclusion in the CIP, the Department of Transportation (DOT) will conduct a feasibility study to determine the general and specific features required for the project. Candidate projects currently are evaluated from the "Drainage Assistance Request" list. As part of the facility planning process, DOT considers citizen and public agency requests and undertakes a comprehensive analysis of storm drainage issues and problems being experienced in the County. This analysis is used to select areas where a comprehensive long-term plan for the remediation of a problem may be required. No construction activities are performed in this project. When a design is 35 percent complete, an evaluation is performed to determine if right-of-way is needed. Based on the need for right-of-way, the project may proceed to final design and the preparation of right-of-way plats under this project. The cost of right-of-way acquisition will be charged to the Advanced Land Acquisition Revolving Fund (ALARF). When designs are complete, projects with a construction cost under \$500,000 will be constructed in the Storm Drain General project. Projects with a construction cost over \$500,000 will be constructed in stand-alone projects.

CAPACITY

Projects will be designed to accommodate the ten-year storm frequency interval.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$96,000 in planned expenditures in FY10 as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Evaluation, justification, and cost-benefit analysis are completed by DOT as necessary. In the case of participation projects, the preparation of drainage studies and preliminary plans will be prepared by the requestor's engineer and reviewed by DOT.

OTHER

Before being added as a sub-project, concept studies are evaluated based on the following factors: public safety, damage to private property, frequency of event, damage to public right-of-way, environmental factors such as erosion, general public benefit, availability of right-of-way and 5:1 benefit cost ratio. In the case of public safety or severe damage to private property, the 5:1 benefit (damage prevented) cost ratio can be waived. Drainage assistance requests are evaluated on a continuing basis in response to public requests. DOT maintains a database of complaints.

Construction Projects Completed: Brookville Rd., Thomlinson Ave., Snider Ln., Beech Ave., Aramat Dr.

Under Construction: Linden Ln., Eldrid Dr., Johnson Ave.

Candidate Projects for FY09 and FY10: Town of Glen Echo, Village of Chevy Chase, Whittier Blvd., Marymount Rd., Springloch Rd., Arrowood Dr.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
- * Expenditures will continue indefinitely.

DESCRIPTION

This project provides funds for facility planning and feasibility studies to evaluate watershed conservation needs and identify remedial project alternatives for stormwater management, stormwater retrofit, low impact design (LID), and stream restoration projects. In addition, facility planning serves as a transition stage for a project. Selected projects vary in type including: preparation of watershed conservation plans assessing stream erosion and habitat; inventories of alternative stream restoration and retrofit projects; complementary non-structural measures to help mitigate degraded stream conditions in rural and developed watersheds; identification of potential flood problems and flood damage reduction measures; and hydrologic, hydraulic, and water quality monitoring and analyses as required to quantify impacts of watershed development and projects to be implemented. Facility planning is a decision-making process that investigates critical project elements such as: usage forecasts; economic, social, environmental, and historic impact analyses; public participation; potential non-County funding sources; and detailed project cost estimates. Facility planning represents planning and preliminary design and develops a program of requirements in advance of full programming of a project.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$500,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Facility planning supports requirements for watershed assessments required in the County's National Pollutant Discharge Elimination System (NPDES) stormwater permit for municipal stormwater discharges and implements the Countywide Stream Protection Strategy (CSPS, 2003). There is a continuing need for the development of accurate cost estimates and an exploration of alternatives for proposed projects. This project establishes the facilities planning data and alternatives analyses needed to identify and set priorities for individual capital projects. Facility planning costs for projects which are ultimately included in stand-alone Project Description Forms (PDFs) are reflected here and not in the resulting individual project. Future individual CIP projects which result from facility planning will each reflect reduced planning and design costs.

The CSPS identified the condition of County watersheds and prioritized subwatersheds for protection and/or restoration. Facility planning studies are targeted based on the CSPS.

OTHER

Ongoing projects are in the Muddy Branch, and Great Seneca Creek watersheds. Projects planned for FY09-10 include: Continuation of the Great Seneca Creek and Muddy Branch Feasibility studies; initiation of the Anacostia Watershed Restoration Plan, and an automated fixed monitoring station operation required by the National Pollutant Discharge Elimination System permit.

OTHER DISCLOSURES

- The Executive asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
- * Expenditures will continue indefinitely.

Total	339	231	8	100	0	0	25	25	25	25	0

DESCRIPTION

This project provides for site selection analysis for: Shady Grove Fire Station, Glenmont Fire Station #18 Replacement, East County Fire Station #37, Fire and Rescue Apparatus Maintenance, Shady Grove Library, 2nd District Police Station, 1st District Police Station, Clarksburg and Damascus Community Recreation and Aquatic Center, West County Outdoor Pool, Kensington Community Recreation Center, Gilchrist Center and other site selection activities such as appraisals, geotechnical services, environmental studies, and surveys.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$191,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

OTHER

These funds will be used for site selection only. No land will be purchased without notice to the County Council that must include the reasons why the proposed site is appropriate for the specific project being planned, including the expected size of the facility and how the site is responsive to community needs. Any land acquisition will be funded initially through ALARF: MCG, then reimbursed by a future appropriation from the specific project. The County Council's Management and Fiscal Policy Committee intends to review the current processes for facility planning and site selection and may decide in future years that site selection should not continue to be a separate project. To ensure that the County does not lose the opportunity to acquire sites for future projects, the Council encourages the Executive to acquire more sites and to acquire sites earlier than previously assumed. The Council also urges the County Executive to work with the Maryland-National Capital Park and Planning Commission staff to review future facility needs in master plans and department strategic plans to identify sites beyond those for projects in facility planning and the current CIP for acquisition.

DESCRIPTION

This project provides for general government facility planning studies for a variety of projects under consideration in the CIP. In addition, facility planning serves as a transition stage for a project between the master plan or conceptual stage and its inclusion as a stand-alone project in the CIP. Prior to the establishment of a stand-alone project, Montgomery County develops a Program of Requirements (POR) that outlines the general and specific features required on the project. Selected projects range in type including: new buildings, renovation of existing buildings, stormwater management, and recycling centers. Facility planning is a decision making process that includes the determination of the purpose of, and need for, a candidate project, a rigorous investigation of non-County sources of funding, and, in some cases, an estimate of the cost of the design and an estimated range of the cost of construction of the project. Facility planning represents planning and preliminary design and develops a POR in advance of full programming of a project in the CIP. Depending upon the results of a facility planning determination of purpose and need, a project may or may not proceed to design and construction. For a full description of the facility planning process, see the CIP Planning Section in Volume I.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$550,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Facility planning costs for all projects which ultimately become stand-alone PDFs are included here. These costs will not be reflected in the resulting individual project.

OTHER

The study proposals under this program are developed in conjunction with program departments, the Department of General Services, the Office of Management and Budget (OMB), and consultants to ensure accurate program requirements. Planning studies underway or to be completed in FY09 or FY10 are listed on the next page. The list includes projects that will potentially be considered for inclusion as stand alone projects in the FY 11-16 CIP. Other projects not listed may be planned under urgent situations.

FISCAL NOTE

\$400,000 for facility planning for a new PSTA to be located at the Webb Tract, as part of the County's Smart Growth Initiative, has been transferred from the PSTA Academic Building Complex, Project No. 479909, to this project.

OTHER DISCLOSURES

- * Expenditures will continue indefinitely.

Net Impact				4	1	1	1	1	0	0

DESCRIPTION

This project involves installation of emergency generators in fire and rescue facilities.

Installation of emergency generators are for the following facilities: Fire Station - Rescue #1 - Bethesda/Chevy Chase; Fire Station #3 - Rockville; Fire Station #4 - Sandy Spring; Fire Station #6 - Bethesda; Fire Station #7 - Chevy Chase; Fire Station #8 - Gaithersburg; Fire Station #9 - Hyattstown; Fire Station #9-A - Hyattstown Apparatus Storage Building; Fire Station #10 - Cabin John; Fire Station #12 - Hillandale; Fire Station #13 - Damascus; Fire Station #15 - Burtonsville; Fire Station #16 - Silver Spring; Fire Station #17 - Laytonsville; Fire Station #20 - Bethesda; Fire Station #23 - Rockville; Fire Station #25 - Kensington; Fire Station #26 - Bethesda; Fire Station #28 - Gaithersburg; Fire Station #29 - Germantown; Fire Station #30 - Cabin John; Fire Station #31 - Rockville; Fire Station #31-A - Rockville USAR Warehouse; Fire Station #33 - Rockville; Fire Station #40 - Sandy Spring; and MCFRS Dover Road Warehouse.

This project will provide continuous operation of emergency equipment, HVAC, emergency lighting, security system, and fire alarm. All installations will be managed by the Department of Public Works and Transportation.

COST CHANGE

The County Executive recommends and the County Council approves reducing current revenue funding of \$992,000 and replacing with GO Bonds as part of the FY10 savings plan.

JUSTIFICATION

The emergency power backup systems are essential for full facility operation in the event of power failure and especially during a large scale disaster situation. Each fire station requires full power to support emergency operations, shelter for professional emergency responders, and essential disaster management operations. Most of the listed facilities are not equipped to meet operational needs during a long-term power outage. Careful evaluation resulted in the determination that most fire stations need to upgrade the size of their current generator systems, while others need to reconstruct their emergency power electrical systems. This project allows facilities to continuously function at a normal power level during long-term power outages.

Assessment study was prepared on December 22, 2004 by MCFRS.

DESCRIPTION

This project provides for the design and construction of a 44,000 gross square foot library located in the Germantown Town Center. The new library will be a free-standing library with 180 parking spaces. The Program of Requirements identifies the need for a fully automated library with 107,000 items for adults, 4,000 items for young adults, 5,000 items for the reference collection, and 74,000 items for the children's collections area. This project will fully comply with the Americans with Disabilities Act.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$1,299,000 in unspent planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Germantown is one of five areas where library services need to be expanded, according to the Department of Public Libraries Strategic Facilities Plan. The Germantown population is expected to grow to 85,000 by 2015. A 16,000 square foot library in the Upcounty Regional Services Center is currently serving this area. In comparison, Planning Area 35 (Bethesda) with a population of 87,000 has three libraries to serve the population. The nearest library, which is also heavily used, is in Gaithersburg. The current library serves a total of 12 schools. After needs assessment by the Department of Public Libraries in October 1998, the Department recommended replacing the existing library with a larger facility.

FISCAL NOTE

When this project is completed the annual Operating Budget Impact will increase by \$504,000 and 5.0 workyears compared to the existing Germantown Library.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.

DESCRIPTION

This project calls for a major renovation and redesign of the Gaithersburg Library, a 33,730 square foot structure located at 18330 Montgomery Village Avenue and opened in 1981. Renovation of this facility will include replacement of HVAC, lighting, electrical, plumbing, security, fire alarm, communications, roof, and windows; reconfiguration of the library interior including a 6,130 square foot addition for expansion of the children's room; redesign of bathrooms to meet accessibility requirements, masonry work to correct on-going cracking of the exterior walls, re-paving of the parking lot and other site work; and replacement of furniture. The project includes the cost of temporary facilities for the duration of construction.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$81,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

The Department of Public Libraries Strategic Facility Plan identified the Gaithersburg Library for renovation in 2001, 20 years after it opened to the public. The library continues to be the busiest in the County with a circulation of more than one million items and about 700,000 visits by the public each year. Staff offer more than 300 public programs per year and the meeting rooms are booked by more than 100 groups per month.

OTHER

The County Council requested that the Executive review the Program of Requirements for this library to take into consideration community demographics, the space and programmatic needs for the library, and any limitations associated with the current site. Any changes proposed as a result of the review may ultimately affect the costs and schedule for this project.

The County Executive approved a model that would add a total of 22,456 gross square feet to the building. This will include a partial second floor with 7,500 gross square feet that will hold the elevator, meeting rooms, mechanical rooms, storage, and a satellite office of the Gilchrist Center. The remaining space will be added to the main level of the current structure along the front, back and sides without impacting the number of current parking spaces.

FISCAL NOTE

Project schedule amended to reflect current implementation plan.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
- The Executive asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

DESCRIPTION

This project provides funds for the development and land use plans for the Germantown Life Sciences Park (GLSP) and the Site II development, also referred to as the East County Center for Science and Technology (ECCST). The project also supports the development of the Germantown, East County, and Rockville business incubators. Specific tasks include feasibility studies, due diligence, refining Programs of Requirements (PORs), design and construction. The Germantown Business Incubator will be located at 20271 Goldenrod Lane in a commercial building adjacent to the Montgomery College campus; the East County Business Incubator will be part of the 115 acre Site II development, located at 2201 Industrial Parkway in the Fairland/White Oak; and the Rockville Innovation Center is located in Rockville's Town Square development. All incubators are modeled after the County's Shady Grove Life Sciences Center (SGLSC). This project originally provided funds to design and construct the public amenities at the SGLSC. Additions to the original project scope included: revised development and subdivision plans to increase site density (FY00); sub-division plans for prospective Life Sciences and Technology Centers (FY03); planning for the East County and Germantown business incubators (FY04); and planning for the Rockville incubator (FY07). This project may also be used for the preliminary development of other incubators, tech parks, or other economic development capital projects should future new opportunities become available.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$80,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Montgomery County developed the original SGLSC as a research and development park for prospective biotechnology companies. All the available parcels in the SGLSC have been leased, purchased, or otherwise committed. The County's four business incubators, the Maryland Technology Development Center, the Silver Spring Innovation Center, the Rockville Innovation Center and the Wheaton Innovation Center currently support over 80 companies. Given the success of the SGLSC and the incubators' graduation rates, it is in the County's interest to continue to invest in and develop projects to attract and provide growth and expansion opportunities for life science and, technology companies.

OTHER

The original component of this CIP project, the construction of all required amenities and improvements to meet M-NCPPC's subdivision requirement for the SGLSC property, is complete. The Rockville Innovation Center was completed in June 2007. The Germantown Life Science Center and the Site II development are in the preliminary design and planning stages and an RFP for a new Site II developer will be issued in FY08. Emphasis will be given to tech park development and incubator planning and design in FY09-FY14.

FISCAL NOTE

The County secured a \$1 million Maryland Technology Development Corporation (TEDCO) grant for the ECCST and once the County is ready to move forward with the project, a 100% match will need to be programmed in addition to the State Funds. The County has also secured \$2 million in Federal Highway Funds for the Site II development and once the County is ready to move forward with the project, a 20% match will need to be programmed in addition to the Federal Funds. The County continues to work with the South Korean province of Chungbuk to create a strategic partnership.

DESCRIPTION

Due to projected Federal funding cuts, there is insufficient funding available to address the basic ongoing capital improvements needed each year. Typical improvements include, but are not limited to, replacement of roofs, windows and doors; improvements to unit interiors such as kitchen and bathroom modernization; replacement of major mechanical, electrical, plumbing systems and equipment; appliance replacement; life-safety improvements; site improvements such as fencing, site lighting, landscaping, and sidewalk and parking lot replacement. HOC will also continue to use its Capital Fund Program (CFP) funds to convert selected dwelling units to mobility handicapped units.

County funds are used to supplement/cover the shortfall of Federal funds in the public housing units. These funds will be allocated across HOC's Public Housing elderly, multi-family and scattered sites properties over the next six (6) years.

CAPACITY

1,555 low and very low-income Public Housing residents.

COST CHANGE

The County Executive recommends and the County Council approves reducing \$121,000 in planned expenditures as part of the FY10 savings plan. The FY11-16 PDF will reflect the reduction in expenditures in the project.

JUSTIFICATION

Current and projected Federal Capital Fund Program (CFP) funds are not adequate for maintaining HOC public housing units at community norms throughout Montgomery County. Federal funding for public housing will be cut. At the same time the public housing stock in the County is aging and will need additional repairs. Montgomery County has a higher property standard than the Federal government. In addition, neighbors in the communities with the public housing units expect the properties to be well maintained. Almost half of the public housing units (700+ units) are MPDUs scattered throughout the County in many communities governed by Home Owner Associations (HOAs), and some have higher standards than the County code. As Federal funding levels for public housing are declining, additional funding is necessary if HOC units are to be maintained at levels consistent with community norms and standards.

In an effort to stay true to its mandate to provide decent, safe and sanitary housing to low and moderate income residents in Montgomery County and to ensure that its properties and communities are maintained at a level consistent with community norms, HOC will use a combination of CFP and County funds to make capital improvements to its public housing stock.

Comprehensive Grant Program 5-year Action Plan from HUD 52834; HOC Modernization Department CGP Long Range Plan; HOC Resident Surveys; HOC Engineering Studies.

FISCAL NOTE

Federal funding for public housing capital improvements is based on a multi-year plan annually. All available non-County funds should be used before County funding is applied. Also, County funds should be allocated across all HOC properties County wide first to code compliance and second to renovations that extend the useful life of the facility.

OTHER DISCLOSURES

- A pedestrian impact analysis will be performed during design or is in progress.
